Nope. I have a call into Kaylee, and Erin is sitting in on some of the WOMT meetings where they discuss this.

We don't really have much of a role in this, given that what they are doing is an Urgency Temporary Change Petition to their water rights permits (as opposed to the actual standards themselves).

But I'll let you know what I find out.

Has the Bureau or DWR briefed EPA on their planned petition to relax D-1641 water quality standards in the Delta?
